CARING FOR YOUR FEET:

FOOT WELLNESS TIPS FOR PEOPLE WITH DIABETES

Foot Health Do's:

- Inspect your feet daily for blisters, cuts and scratches. Always check between your toes.
- Wear shoes that are designed to protect your feet from injury.
- Wash your feet daily and dry carefully.
- Avoid extreme temperatures. Test water with your hands or elbow before bathing.
- If your feet feel cold at night, wear socks.
- Inspect the insides of your shoes daily for foreign objects and rough areas.
- Shoes should be fitted by a footcare specialist and be comfortable at the time of purchase.
- See your physician regularly and be sure to have your feet examined at each visit.

Foot Health Don'ts:

- Don't smoke.
- Don't soak your feet in hot water.
- Don't walk barefoot.
- Don't walk on hot surfaces such as sandy beaches or on the cement around swimming pools.
- Don't use chemical agents for the removal of corns and calluses.
- Don't wear mended stockings and avoid stockings or socks with exposed seams.
- Don't use oil or cream between your toes.
- Don't wear sandals with thongs between the toes.
- Don't cut corns or calluses; see your physician

YOU DON'T HAVE TO FALL!

Falls among our senior population is a little-known secret in healthcare. Most people who are having balance problems believe that falling is just a part of getting older. They keep it secret from family, friends and doctors for fear of losing their independence. Then they have a really bad fall and break their hip...or worse.

One in three Americans aged 65 or older falls each year

Every 19 minutes, an older adult dies from a fall

Every 11 seconds, an older adult is treated in the emergency room for a fall

Falls are the leading cause of death from injury among Americans age 65 or older

ARE YOU AT RISK FOR FALLING?

Ask your doctor about the **MOORE BALANCE BRACE** and request a fall-risk assessment today!

PREFABRICATED ORTHOTIC SUPPORTS DYNAFLANGE™

The patented DynaFlange® represents a profoundly new approach to prefabricated orthotic supports. This device dynamically manages motion with every step. Enhanced shock absorption means greater comfort, especially when standing for long periods on hard surfaces. The patented rearfoot flange flexes during heel strike, storing energy that is released during the subsequent phases of gait, efficiently positioning the foot for optimal propulsion.

DynaFlange® orthotic supports improve center of pressure and stability through all phases of the gait cycle guiding the foot back to neutral resulting in improved posture while standing, walking or running.

MEN'S SIZES: 4.5 - 13
WOMEN'S SIZES: 5.5 - 14

REDUCED IMPACT FORCES

Enhanced shock absorption means greater comfort - especially when standing for long periods on hard surfaces.

DYNAMIC ENERGY RETURN

The patented rearfoot flange flexes during heel strike, storing energy that is released during the subsequent phases of gait, efficiently positioning the foot for optimal propulsion. DynaFlange® does the work so you don't have to!

POSTURAL EFFICIENCY

DynaFlange® orthotic supports improve center of pressure and stability through all phases of the gait cycle which results in improved posture while standing, walking or running.

APEX® SEAMFREE SOCKS

Apex Seamfree Socks are recommended by doctors and pedorthists for diabetic foot protection. The socks are woven from a thin, yet strong acrylic yarn that allows for a proper shoe fit, as well as from soft spandex to ensure they stay up for the duration of the day.

Apex Seamfree Socks are made from soft, hi-tech acrylic fibers that wick away moisture from the foot. Safe for those with diabetes and poor circulation, they are available in extra-wide for patients who suffer from edema. All styles and colors available in S, M, L.
